

June 7, 2007

To Whom It May Concern:

We have worked with J.E. Jackson and Associates, Inc. on several projects during the last couple of years and have developed a solid professional relationship.

Ms. Jackson has consistently delivered a timely, yet thorough Final Clean. She provides a detailed scope of work to be completed on all projects. She is flexible and works well with other trades.

As a working owner, Ms. Jackson is very available for communication with our field personnel. Her crews are reliable and get the job done efficiently the first time. Prior to departing from the job site, a representative from her company is assigned to perform a quality control check with the project superintendent to ensure that all has been completed to the customer's satisfaction.

Sincerely,

DANA B. KENYON COMPANY
